BUYERS ON PLATFORM

THE OPPORTUNITY

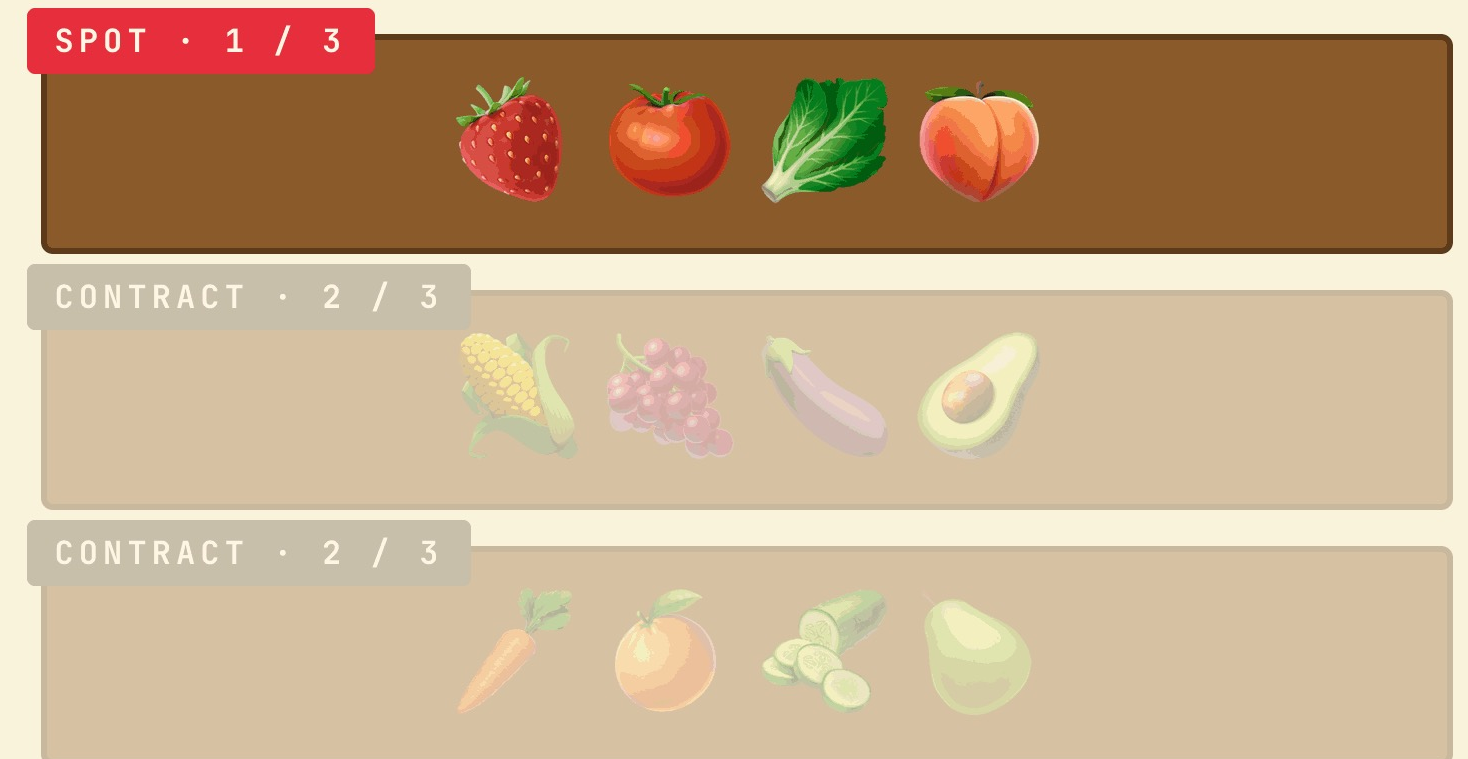

1 in 3 truckloads
sells **on the spot.**

US SPOT MARKET • ANNUAL

\$166B

of **\$500B** annual US perishable + food market

Every dollar transacted in hours, not weeks.

↑ 1 / 3 of all grown produce sells on the spot

THE PROBLEM

A strawberry lives **2 weeks.** 1 of them is spent **negotiating.**

04:00 AM • THE FIELD

Grower cold-calls buyers.

06:00 AM • LOGISTICS

Buyer on hold with 5 growers.

WEEK 1 • phone tag • voicemails • waiting

WEEK 2 • selling • logistics • spoiling

FIRST — THE MARKETPLACE

Automate the transactions.

Sellers post inventory. Buyers post demand. Software finds the overlap.

SECOND — THE AGENTS

Not just a marketplace. An **agent-to-agent** marketplace.

SELLER AGENT

✓ CLOSED \$2.85 • 22s • 4 rounds

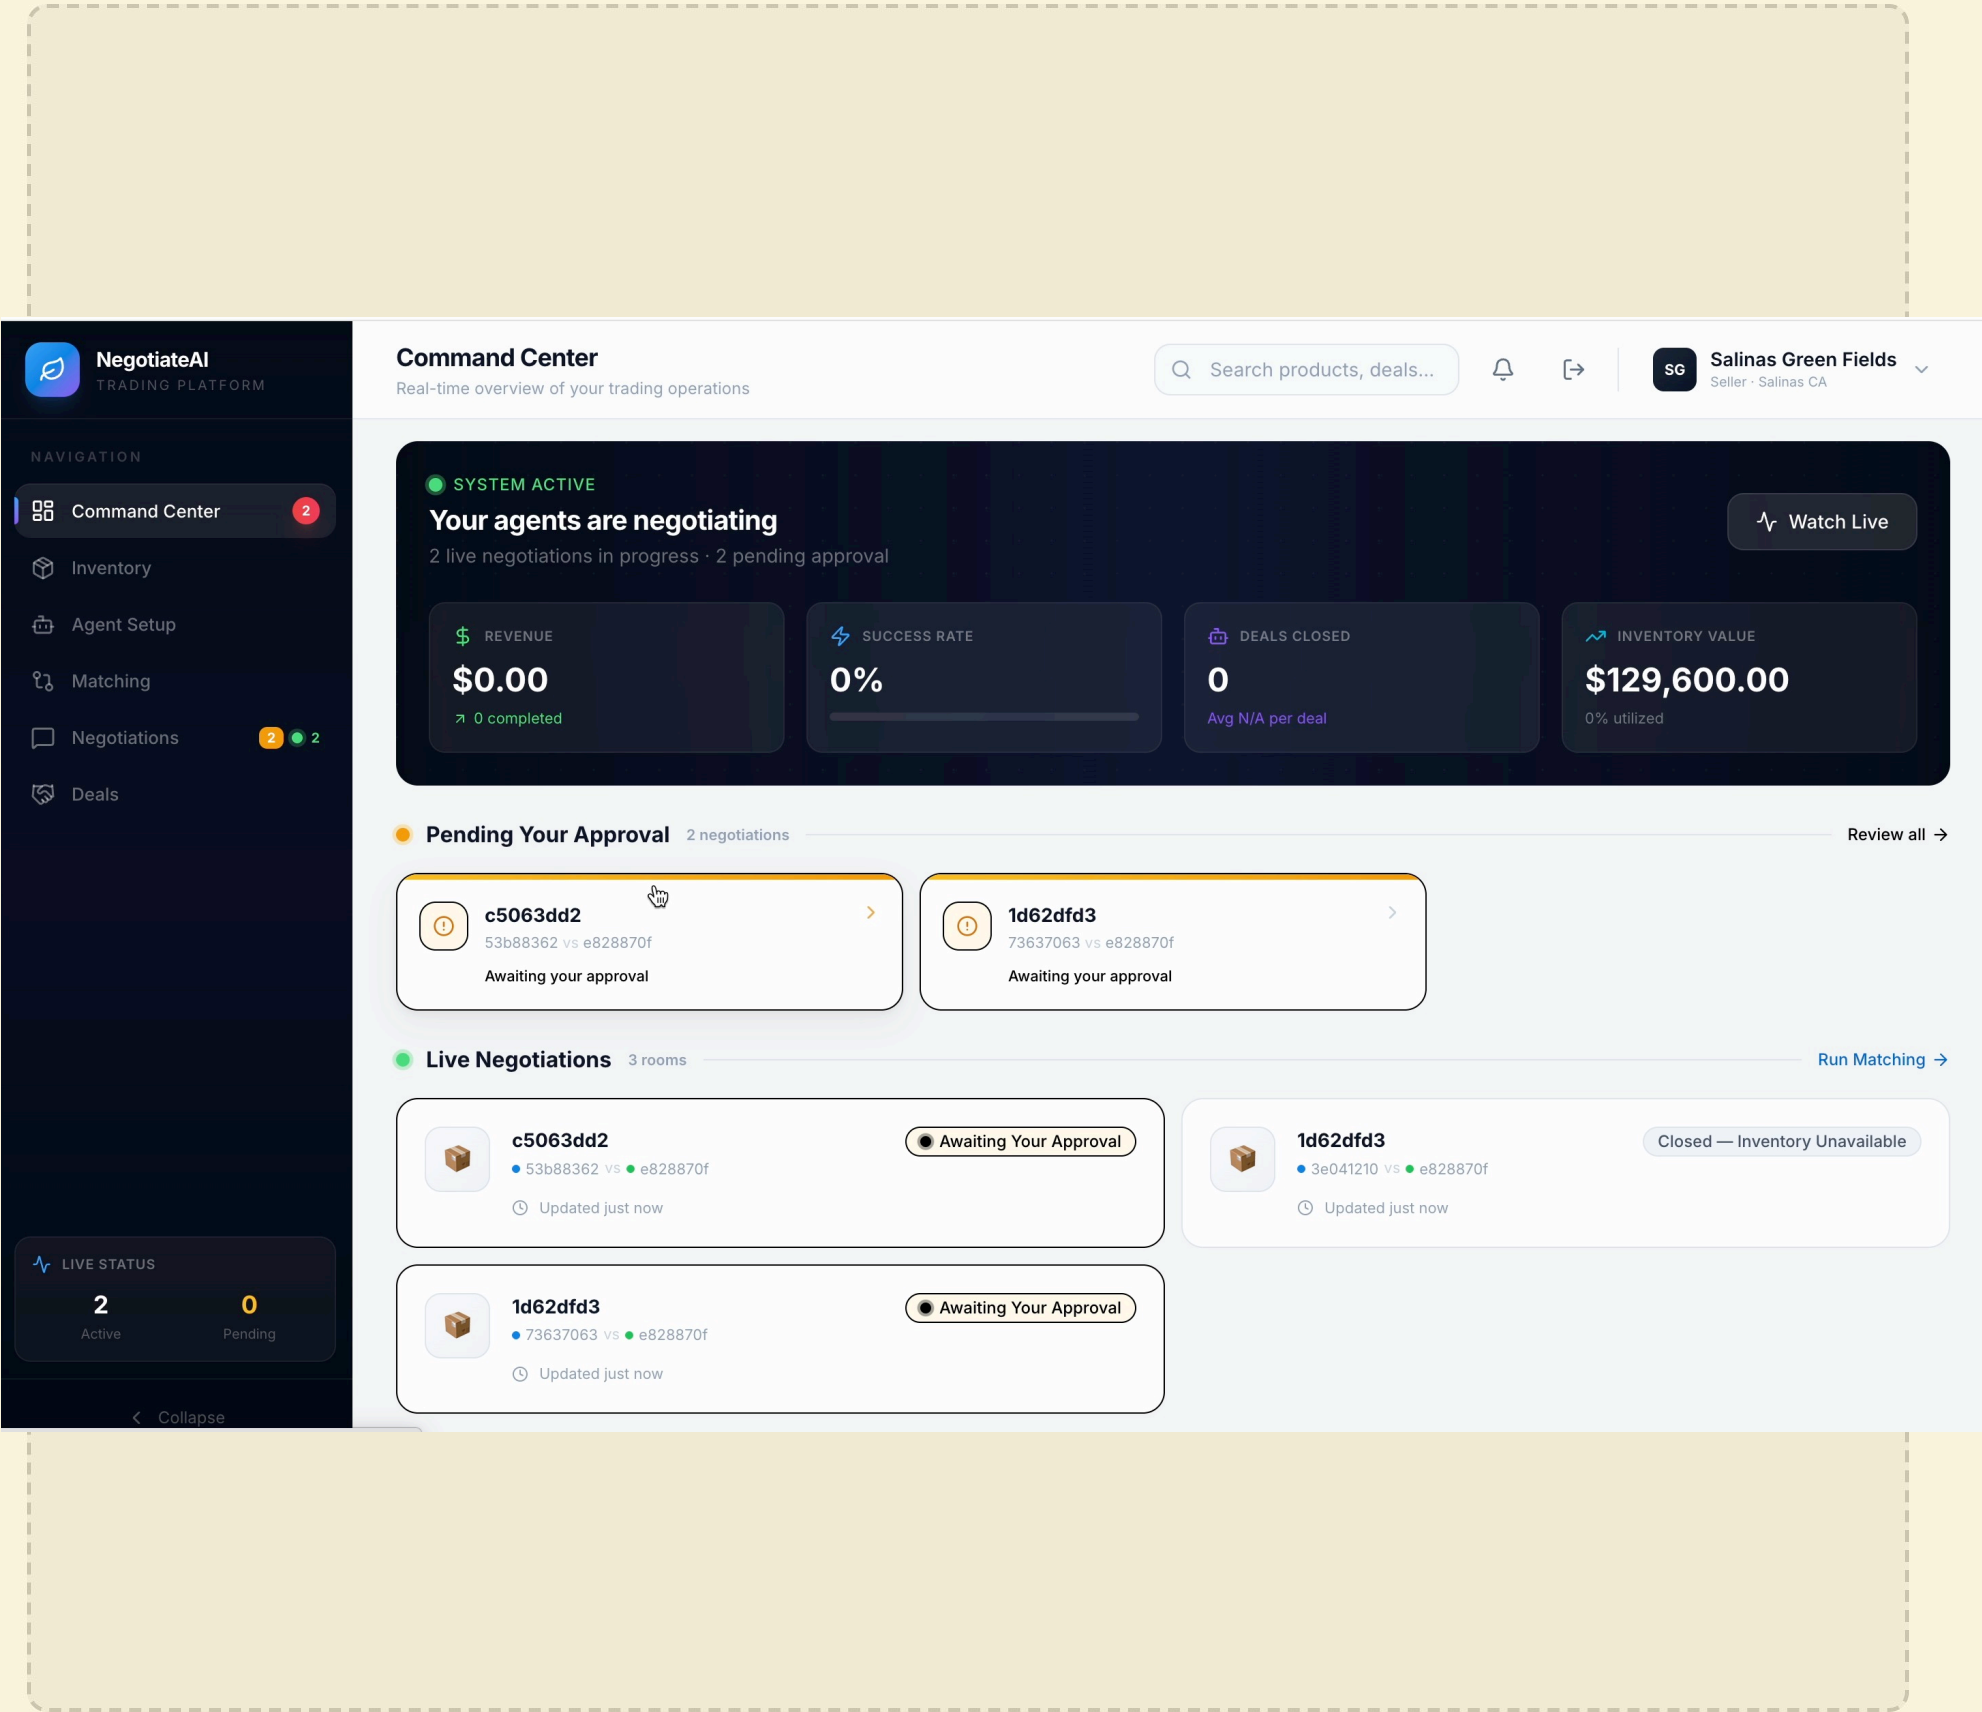

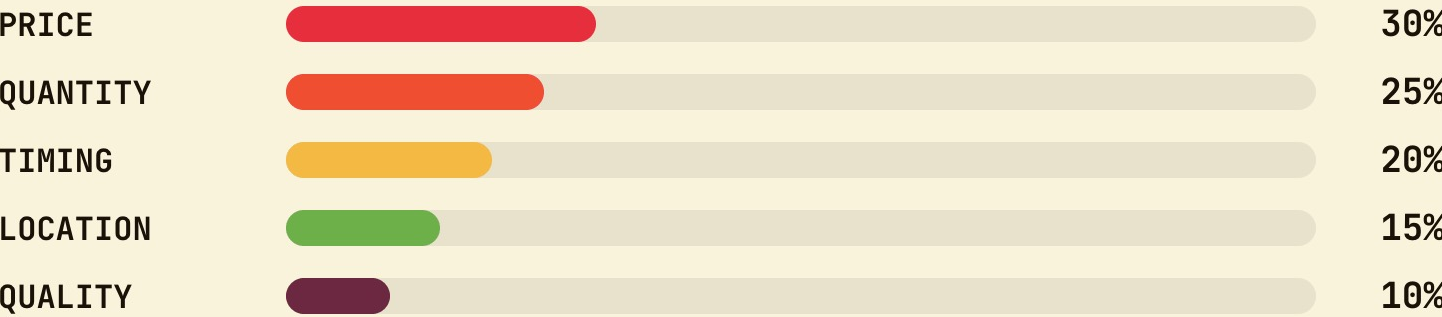

BUYER AGENT

"Meet at \$2.85"

Marketplace + matching.

Sellers post inventory. Buyers post demand. The algorithm finds the overlap in milliseconds.

An army of agents.

One per product. Each with its own personality, guardrails, and a private utility curve.
